PROXY STATEMENT
JANUARY 24, 2003

ANNUAL MEETING OF STOCKHOLDERS
MARCH 7, 2003

SOLICITATION AND VOTING RIGHTS

The accompanying proxy is solicited by the Board of Directors of Powell Industries, Inc., a Nevada corporation (the "Company"), for use at the Annual Meeting of Stockholders of the Company to be held on Friday, March 7, 2003 at 11:00 a.m., Houston time, at the offices of the Company at 8550 Mosley Drive, in Houston, Texas, or at any adjournment thereof.

This Proxy Statement and proxy and the accompanying Notice of Annual Meeting, Summary Annual Report to Stockholders, and Form 10-K for the year ended October 31, 2002, including consolidated financial statements, will be mailed to stockholders on or about January 31, 2003. The cost of soliciting proxies in the enclosed form will be borne by the Company. The Board of Directors of the Company has fixed January 20, 2003, as the record date for determination of stockholders entitled to receive notice of and to vote at the Annual Meeting. As of January 20, 2003, there were 10,595,878 shares of the Company's Common Stock, par value \$.01 per share ("Common Stock"), outstanding. Each holder of Common Stock will be entitled to one vote for each share owned, except as noted below.

The presence, in person or by proxy, of the holders of a majority of the outstanding shares of Common Stock of the Company is necessary to constitute a quorum at the meeting. The holders of shares represented by proxies reflecting abstentions or "broker non-votes" are considered present at the meeting and count toward a quorum. Brokers holding shares of record for their customers generally are not entitled to vote on certain matters unless they receive voting instructions from their customers. When brokers complete proxy forms, they generally vote on those matters as to which they are entitled to vote. On those matters as to which brokers are not entitled to vote without instructions from their customers and have not received such instructions, brokers generally indicate on their proxies that they lack voting authority as to those matters. As to those matters, such indications are called "broker non-votes".

The persons receiving the greatest number of votes cast at the meeting to fill the directorships with terms to expire in 2006 will be elected as directors of the Company, class of 2006. Thus, abstentions and broker non-votes will have no effect on the election of directors.

Regarding other matters, the vote of a majority of the voting power present, in person or by proxy, and entitled to vote on the matters, at a meeting at which a quorum is present, is the act of the stockholders. Accordingly, abstentions will have the effect of negative votes with respect to any such other matters. Broker

non-votes will have the effect of negative votes as to any such other matters as to which the broker is entitled to vote, and no effect on those matters as to which the broker is not entitled to vote.

The shares represented by each valid proxy received by the Company on the form solicited by the Board of Directors will be voted in accordance with instructions specified on the proxy. Under Nevada law, a stockholder giving a duly executed proxy may revoke it before it is exercised only by filing with or transmitting to the Secretary of the Company an instrument or transmission revoking it, or a duly executed proxy bearing a later date.

- (1) None of the corporations listed (other than the Company) is an affiliate of the Company.
- (2) Mr. Powell also serves as a director of each subsidiary of the Company.
- (3) Mr. Clark was appointed by the Board of Directors at its June 15, 2001 meeting to fill a vacancy in the class of 2003.

Only the directors who are not employees of the Company or any of its subsidiaries or affiliates are entitled to receive a fee, plus reimbursement of out-of-pocket expenses, for their services as directors. Under the Company's standard arrangement for compensation of directors, outside directors receive a quarterly retainer of \$2,500 and a fee of \$2,000 for each board meeting attended. Members of a committee other than the chairman receive a fee of \$800 for attending each committee meeting. Committee chairmen receive \$1,250 for attending each committee meeting.

In 1993, the Company adopted the Powell Industries, Inc. Directors' Fee Program which permits directors to defer receipt of the directors' fees to which

they would otherwise be entitled and to have such deferred fees allocated to a shadow account as if they were invested in Common Stock of the Company on the date the fees were payable. Then upon expiration of the deferral period or the retirement or death of the director, payment will be made in the form of shares of Common Stock equal to the number of shares in his shadow account (plus any distributions on the Common Stock that were credited to the shadow account).

The Shareholders voted at the March 16, 2002 meeting to approve the Non-Employee Director Stock Option Plan which supersedes the 2000 Non-Employee Stock Option Plan adopted by the Board of Directors in 2000. The total number of shares of Common Stock reserved under the plan are 100,000 shares. The Plan is administered by the Board of Directors. Eligibility to participate in the Plan is limited to those individuals who are members of the Board of the Company and who are not an employee of the Company or any affiliate of the Company. Options have been issued to each of the non-employee directors to acquire shares of the Company's common stock in accordance with the terms of the Plan.

Four meetings of the Board of Directors were held in the last fiscal year. No incumbent director attended fewer than seventy-five percent (75%) of the aggregate of (1) the total number of meetings of the Board of Directors and (2) the total number of meetings held by all committees of the Board on which he served.

The Board of Directors has a standing Audit Committee which met five times during the last fiscal year. The Audit Committee consists of Mr. Butler, Mr. Seale and Mr. Tanner. The Audit Committee has the responsibility to assist the Board of Directors in fulfilling its fiduciary responsibilities as to accounting policies and reporting practices of the Company and its subsidiaries and the sufficiency of the audits of all Company activities. It is the Board's agent in ensuring the integrity of financial reports of the Company and its subsidiaries, and the adequacy of disclosures to shareholders. The Audit Committee is the focal point for communication between other directors, the independent auditors, internal auditors and management as their duties relate to financial accounting, reporting, and controls. During fiscal 2000, the Board of Directors adopted an Audit Committee Charter, which was attached as Appendix A to the Proxy Statement for the Company's Annual Meeting of Stockholders on March 16, 2001. A copy of the Audit Committee Charter may be obtained at the offices of the Company in Houston, Texas. The current members of the Audit Committee are "independent" as that term is defined by Rule 4200(a)(15) of the listing standards of the National Association of Securities Dealers. All meetings of the Audit Committee were separate and apart from meetings of the full Board of Directors during fiscal 2002.

AUDIT COMMITTEE REPORT

The Audit Committee has (1) reviewed the Company's audited financial statements for fiscal 2002 and discussed them with Management, (2) discussed with the Company's independent accountants the matters required to be discussed by Statement of Auditing Standards No. 61, as amended, (3) received written disclosures and a letter from the Company's independent accountants required by Independence Standards Board Statement No. 1, and (4) discussed the independence of the Company's accountants with the accountants. Based on the foregoing discussions, the Audit Committee recommended to the Company's Board of Directors that the Company's audited financial statements be included in its annual report on Form 10-K for the year ended October 31, 2002.

The Audit Committee of the Board of Directors:

Eugene L. Butler, Chairman
Stephen W. Seale, Jr.
Lawrence R. Tanner

The Board of Directors also has a standing Compensation Committee comprised of Mr. Becherer, Mr. Wolny and Mr. Tranchon, all of whom are non-employee directors of the Company. The Compensation

Committee, which held three meetings during the last fiscal year, provides oversight on behalf of the full Board on development and administration of the Company's executive compensation program and each component plan in which officers and directors are eligible to participate. The Compensation Committee also administers the Stock Option Plan, the Director's Fee Program, Incentive Compensation Plan and the Non-Employee Director Stock Option Plan of the Company.

The Board of Directors approved a resolution to create a standing Nominating Committee at its September 20, 2002 meeting appointing Mr. Powell, Mr. Wolny and Mr. Butler to serve as the initial members. The Nominating Committee evaluates candidates and recommends nominees for election to the Company's Board of Directors at each annual meeting. The Nominating Committee held meetings and/or acted by unanimous consent one time to designate the nominees for the directors with terms to expire in 2006 to be elected at the Annual Meeting. The Nominating Committee does not consider recommendations from shareholders for nomination to the Board of Directors.

(1) In 1993, the Company adopted the Powell Industries, Inc. Directors' Fee Program (the "Program"). Under the Program, directors may defer receipt of the directors' fees and have such fees allocated to a shadow account as if they were invested in the Company's common stock based on the fair market value on the date the fees are payable. Upon expiration of the deferral period elected by the director, or upon death, the shares held in his shadow stock account are distributed, along with any distributions on the Common Stock that were credited to the shadow stock account. As of October 31, 2002 a total of 20,542 shares of Common Stock were held in shadow stock accounts for the directors. The program was not approved by the Company's shareholders.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

During the last fiscal year of the Company, Mr. Becherer, Mr. Wolny, and Mr. Tranchon served on the Compensation Committee of the Board of Directors of the Company. None of them has ever served as an officer or employee of the Company or any of its subsidiaries. Also, during the last fiscal year, no executive officer of the Company served as a member of the Compensation Committee or Board of Directors of another entity, one of whose executive officers served on the Company's Board of Directors.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The Compensation Committee (the "Committee") of your Board of Directors is pleased to present to the shareholders its annual report on executive compensation. This report summarizes the responsibilities of the Committee, the compensation policy and objectives that guide the development and administration of the executive compensation program, each major component of the program, and the basis on which the compensation for the Chief Executive Officer, corporate officers and other key executives was determined for the fiscal year ended October 31, 2002.

The Compensation Committee, at the December 5, 2002 committee meeting, adopted the Powell Industries, Inc. Deferred Compensation Plan. The plan allows for a select group of management and highly compensated employees to defer compensation with respect to any bonus eligible for deferral prior to December 31, 2002 and January 1, 2003 for compensation and future bonuses eligible for deferral on and after January 1, 2003. The company reserves the right to amend and restate the Plan from time to time.

The Compensation Committee, which held three meetings during the last fiscal year, provides oversight on behalf of the full Board on development and administration of the Company's executive compensation program and each subcomponent plan under which officers or directors are eligible to participate. The Compensation Committee also administers the Stock Option Plan, Directors' Fee Program, Incentive Compensation Plan and the Non-Employee Director Stock Option Plan of the Company.

Executive Compensation Philosophy

The philosophy of the Committee is that the Company's executive compensation program should be an effective tool for fostering the creation of shareholder value. The following objectives guide the Committee in its deliberations:

- Provide a competitive compensation program that enables the Company to attract and retain key executives and Board members.
- Assure a strong relationship between the performance results of the Company or subsidiary and the total compensation received.
- Balance both annual and longer performance objectives of the Company.
- Encourage executives to acquire and retain meaningful levels of Common Stock of the Company.
- Work closely with the Chief Executive Officer to assure that the compensation program supports the management style and culture of the Company.

In addition to normal employee benefits, the executive total compensation program includes base salary, annual cash incentive compensation, and longer-term stock based grants and awards.

Comparisons are made and surveys taken periodically to determine competitive compensation levels and practices for certain benchmark positions in the Company. Such analysis covers a broad group of manufacturing companies and the results are adjusted for differences in factors such as company size and position responsibilities. This comparison group is broader than the published industry index of companies included in the cumulative total return performance graph presented elsewhere in this Proxy Statement because it is more representative of the executive market in which the Company competes for talent and provides a consistent and stable market reference from year to year. Other comparative information from national survey databases, proxy statement disclosures, and general trend data provided by compensation consultants is also considered.

Variable incentives, both annual and longer term, are important components of the program and are used to link pay and performance results. Variable incentive awards and performance standards are calibrated such that total compensation will generally approximate the market 50th percentile when Company performance results are at target levels which approximate the recent historical performance of the Company (subject to certain minimum target levels), and will exceed the 50th percentile when performance exceeds targets. However, changes in the mission and strategy of the Company or certain of its subsidiaries as well as projected profit and growth are also important considerations in the calibration of the Company's total executive compensation program.

The Internal Revenue Code (Section 162(m)) imposes a \$1,000,000 limit, with certain exceptions, on the deductibility of compensation paid to each of the five highest paid executives. In particular, compensation that is determined to be "performance based" is exempt from this limitation. To be "performance based,"

incentive payments must use predetermined objective standards, limit the use of discretion in making awards, and be certified by the Compensation Committee made up of "outside directors." While the Committee believes that the use of discretion is appropriate in specific circumstances, it believes that the annual incentive compensation and longer term stock plans comply with the provisions of Section 162(m) as "performance based". It is not anticipated that any executive will receive compensation in excess of this limit during fiscal year 2003. The Committee will continue to monitor this situation and will take appropriate action if it is warranted in the future.

Following is a discussion of each of the principal components of the executive total compensation program.

BASE SALARY

The base salary program targets the median of the primary comparison group for corporate officers and managers. Since subsidiary presidents generally have a higher incentive opportunity relative to comparable positions in the market, base salaries for subsidiary presidents are targeted somewhat below the market median. Each executive's base salary is reviewed individually each year. Salary adjustments are based on the individual's experience and background, performance during the prior year, the general movement of salaries in the marketplace, and the Company's financial position. Due to these factors, an executive's base salary may be above or below the target point at any point in time.

ANNUAL INCENTIVE COMPENSATION

The Company administers an annual incentive plan for its corporate officers and managers, and subsidiary presidents and selected subsidiary managers. The goal of the plan is to reward participants in proportion to the performance of the Company and/or the subsidiary for which they have direct responsibility, and their individual contributions to the Company's performance.

The amount of annual incentive compensation each participant is eligible to earn varies based on his potential contribution to the future performance of his subsidiary or the Company. The amount of such compensation actually earned by each participant is based on the actual financial performance of his subsidiary or the Company for the year compared to profit and growth target ranges which are set at the beginning of that year. Historical performance, current mission and strategy, and projected profit and growth capability are considered in setting the targets for each subsidiary and the Company.

STOCK BASED COMPENSATION

Stock ownership is encouraged through the use of a stock plan that provides for the grant of stock options and stock awards. Stock option grants are made on a periodic basis (typically every other year) and are based on competitive multiples of base salary. Senior executives typically have a higher multiple and, as a result, have a greater portion of their total compensation linked to the longer term success of the Company. In determining the appropriate grant multiples, the Company targets the market median among publicly held manufacturing companies of similar size. To encourage stock retention, participants who retain the shares obtained through the exercise of an option receive a restricted stock award equal to one additional restricted share for every five option shares retained for five years from the date they were acquired.

Compensation of the Chief Executive Officer

The Chief Executive Officer, Mr. Thomas W. Powell, participates in the executive compensation program described in this report.

In establishing the total compensation program for Mr. Powell, the Committee assessed the pay levels for CEOs in similar companies in the manufacturing industry and the profit performance of the Company.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's officers and directors, and persons who own more than ten percent of a registered class of the Company's equity securities, to file reports of ownership and changes in ownership with the Securities and Exchange Commission. Officers, directors and greater-than ten percent stockholders are required by the regulation to furnish the Company with copies of all Section 16(a) forms they file.

Based solely on the Company's review of the copies of such forms received by it, or written representations from certain reporting persons that no Form 5 reports were required for those persons, the Company believes that all filing requirements applicable to its officers and directors and greater-than ten percent beneficial owners during the 2002 fiscal year were complied with, except that Ronald J. Wolny, one of the Company's directors, failed to file a report on Form 4 with respect to one transaction, which was subsequently reported on Mr. Wolny's Form 5 for the year ended October 31, 2002.

INDEPENDENT AUDITORS

On May 23, 2002, Deloitte & Touche LLP was appointed by the Company's Board of Directors to serve as the principal accountants for the Company for the fiscal year ending October 31, 2002, and such firm will continue to serve as the Company's principal accountants for fiscal 2003. Representatives of Deloitte & Touche LLP are expected to be present at the Annual Meeting of Stockholders. They will have the opportunity to make a statement if they desire to do so, and are expected to be available to respond to appropriate questions. Prior to the appointment of Deloitte & Touche LLP, Arthur Andersen LLP served as the Company's principal accountants. The decision to replace Arthur Andersen with Deloitte & Touche was made pursuant to the recommendation of the Company's Board of Directors and its Audit Committee.

Andersen's report on the Company's financial statements for the two fiscal years ended October 31, 2000, and October 31, 2001, did not contain an adverse opinion or disclaimer of opinion and were not qualified or modified as to uncertainty, audit scope or accounting principles.

During the Company's two fiscal years ended October 31, 2000, and October 31, 2001, and the subsequent interim periods preceding the decision to change independent public accountants, there were no disagreements with Andersen on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure which, if not resolved to Andersen's satisfaction would have caused them to make reference to the subject matter of the disagreement in connection with the audit reports of the Company's consolidated financial statements for such years. There were no reportable events as described under Item 304(a)(1)(v) of Regulation S-K.

The Company provided Andersen with a copy of the foregoing disclosures. A letter from Andersen dated May 23, 2002, stating its agreement with these statements is attached to this Proxy Statement as Appendix A.

In the years ended October 31, 2000 and October 31, 2001, and through the date hereof, the Company did not consult Deloitte with respect to the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on the Company's financial statements, or any other matters or reportable events as set forth in Items 304(a)(2)(i) and (ii) of Regulation S-K.

AUDIT FEES

The aggregate fees billed by Deloitte & Touche LLP for professional services rendered for the audit of the Company's annual financial statements for the fiscal year ended October 31, 2002 and for the review of the financial statements included in the Company's third quarter report on Form 10-Q for the same fiscal year were \$209,000.

The aggregate fees billed by Arthur Andersen LLP for professional services rendered for reviews of the financial statements included in the Company's first and second quarter reports on Form 10-Q for the 2002 fiscal year were \$22,000.

FINANCIAL INFORMATION SYSTEMS DESIGN AND IMPLEMENTATION FEES

There were no fees billed by Deloitte & Touche LLP or Arthur Andersen LLP for professional services rendered for information technology services related to financial information systems design and implementation for the fiscal year ended October 31, 2002.

ALL OTHER FEES

The aggregate fees billed by Deloitte & Touche LLP for services other than the services described under "Audit Fees" and "Financial Information Systems Design and Implementation Fees" above, for the fiscal year ended October 31, 2002 were \$53,375, which amount included, among other things, fees for general and specific tax work and tax advice and review of the Company's benefit plans.

The aggregate fees billed by Arthur Andersen LLP for services other than the services described under "Audit Fees" and "Financial Information Systems Design and Implementation Fees" above, for the fiscal year ended October 31, 2002 were \$5,000, which amount included fees for general and specific tax work and tax advice.

The Audit Committee has considered whether the provision of non-audit services by Deloitte & Touche LLP and Arthur Andersen LLP is compatible with maintaining the independent auditor's independence. It is the judgment of the Audit Committee that the level of effort and mix of professional services does not constitute a conflict of interest and therefore does not compromise the auditor's independence.

OTHER MATTERS

As of the date of this statement, the Board of Directors has no knowledge of any business which will be presented for consideration at the meeting other than the election of three directors of the Company. Should any other matters be properly presented, it is intended that the enclosed proxy will be voted in accordance with the best judgment of the persons voting the matter.

ANNUAL REPORT

A Summary Annual Report to Stockholders and an Annual Report on Form 10-K covering the fiscal year of the Company ended October 31, 2002 are enclosed herewith. These reports do not form any part of the material for solicitation of proxies.

STOCKHOLDER PROPOSALS

Proposals of stockholders to be presented at the Annual Meeting of Stockholders to be held in 2004 must be received at the office of the Secretary of the Company no later than September 25, 2003 in order to be included in the Company's proxy statement and form of proxy relating to that meeting.

A stockholder that intends to present business at the 2004 annual meeting and has not submitted such proposal by the date set forth above must notify the Secretary of the Company no later than December 10, 2003. If such notice is received after December 10, 2003, then the notice will be considered untimely, and the Company is not required to present such business at the 2004 annual meeting.

All proposals must comply with applicable SEC regulations and the Company's By-laws as amended to date.
