### POWELL INDUSTRIES ANNOUNCES FISCAL 2017 FIRST QUARTER RESULTS

HOUSTON — FEBRUARY 7, 2017 — Powell Industries, Inc. (NASDAQ: POWL), a leading supplier of custom engineered solutions for the management, control and distribution of electrical energy, today announced results for the fiscal 2017 first quarter ended December 31, 2016.

Revenues for the first quarter of fiscal 2017 were \$110.3 million compared to revenues of \$150.0 million for the first quarter of fiscal 2016. The Company reported a net loss for the first quarter of fiscal 2017 of \$0.3 million, or \$0.03 per diluted share, compared to a net loss of \$0.5 million, or \$0.04 per diluted share, for the first quarter of fiscal 2016. Excluding restructuring and separation costs, net income for the fourth quarter of fiscal 2016 was \$2.0 million, or \$0.18 per diluted share. A reconciliation of this non-GAAP financial measure to net income is included in the financial tables below.

Brett A. Cope, Powell's President and Chief Executive Officer, stated, "Our first quarter results reflect the challenges we faced entering 2017 with a reduced backlog and continued downward pressure on Powell's core oil, gas and petrochemical markets. While inquiry activity has remained steady relative to what we have seen in the past several quarters, we continue to experience price pressure and increased uncertainty around the timing of the order cycle process.

"Despite these challenges, Powell remains focused on maintaining our strong financial position by strengthening our balance sheet, generating positive net cash from operating activities and increasing our cash position. Powell employees, working both within and across our division lines, are delivering superior project execution and improving our efficiencies throughout our operations."

New orders placed during the first quarter of fiscal 2017 totaled \$91 million compared to \$111 million in the fourth quarter of fiscal 2016 and compared to \$102 million in the first quarter of fiscal 2016. The Company's backlog as of December 31, 2016 was \$271 million compared to \$291 million as of September 30, 2016 and compared to \$391 million at the end of last year's first quarter.

As Powell continues to be adversely affected by uncertain market conditions, second quarter 2017 revenue is not likely to improve sequentially from the first quarter and the Company continues to expect to report a net loss in fiscal 2017.

For all periods presented, the Company defines non-GAAP net income as net income which excludes Restructuring and separation costs. The income tax effect is based on the applicable statutory rate. Non-GAAP financial measures should not be considered a substitute for, or superior to, measures of financial performance prepared in accordance with GAAP. However, the Company believes by excluding these items, these non-GAAP financial measures are helpful in comparing the historical results to current results because this non-GAAP information provides consistent measures of the underlying results of our ongoing operations. The Company also believes the disclosure of non-GAAP net income will help investors meaningfully evaluate and compare its cash flow generating capacity from quarter to quarter and year to year.

The non-GAAP items, and the basis for excluding them from GAAP financial measures, are outlined below:

• **Restructuring and separation costs**— In the first quarter of fiscal 2016, we incurred restructuring and separation costs of approximately \$3.8 million associated with the departure of our Chief Executive Officer.

Due to the nature of these items, the Company does not believe that these items reflect its ongoing operations.
