Forward Looking Statements

This presentation contains “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements other than statements of historical fact, included in this presentation are forward-looking statements. Such forward-looking statements include, but are not limited to, projections and estimates concerning the timing and success of specific projects, our future backlog, revenues, income, acquisitions, including the Remsdaq acquisition, liquidity, capital spending, results of operations and financial condition, dividends, as well as other statements that are not historical facts contained in or incorporated by reference into this presentation. These forward-looking statements speak only as of the date of this presentation; we disclaim any obligation to update or revise these statements unless required by applicable law, whether as a result of new information, future events or otherwise; and we caution you not to unduly rely on them. We have based these forward-looking statements on expectations and assumptions of management at the time the statements were made. While our management considers these expectations and assumptions to be reasonable, they are inherently subject to significant business, economic, competitive, regulatory and other risks, contingencies and uncertainties that could cause actual results to differ materially from those included in this presentation, most of which are difficult to predict and many of which are beyond our control. These risks, contingencies and uncertainties relate to, but are not limited to, the factors detailed herein and in our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and other SEC filings, which are available on our website at powellindustriesinc.gcs-web.com. We can provide no assurance that the forward-looking statements contained in this presentation will occur as expected, and actual results may differ materially from those included in this presentation.

Non-GAAP Financial Measures

This presentation includes non-GAAP financial measures, which help facilitate comparison of company performance across periods. For a reconciliation of non-GAAP measures included herein to the nearest corresponding GAAP measure, please see the appendix to this presentation.

Powell Industries ... Who We Are

- ✓ Founded in 1947 with headquarters in Houston, Texas
- ✓ A solutions provider for complex electrical applications
- ✓ Global manufacturing footprint
- ✓ FY2025 revenues of \$1.1B
- ✓ Unleveraged balance sheet

Experts in Electrical Distribution

Leader in the custom design, manufacture and service of complex electrical solutions where critical power applications demand safe and reliable supply

Market Focus

Nature of Highly Complex, Custom Solutions Fosters Recurring Customers

Focusing on Electrical Distribution

Switchgear Solutions

American National Standards Institute (ANSI)

Predominant Standard in North America

International Electrotechnical Commission (IEC)

Predominant Standard Outside North America

Flexible design and construction to your unique application

Meets or exceeds the requirements of national, regional and local standards

Experienced technical resources driving superior end products

Reliable, engineered to order, tested electrical solutions

Engineered to Order Customized Power Distribution

Integrated Power Solutions

Power Control Room

Custom Engineered Module

Secure factory controlled environment for fabrication versus jobsite construction

Expertise of electrical distribution & control while compliant to latest building & energy codes

Coordination of multiple interfaces & auxiliary systems with the highest safety standards

Fully complete, operationally ready, integrated and tested solution

Optimizing Electrical Power Solutions

Typical Power Control Room

Typical PCR Project

- ✓ Engineered to Order
- ✓ ~45 engineers
- ✓ ~97 sub-suppliers
- ✓ ~4,400 purchased components
- ✓ ~750 electrical & mechanical drawings

Delivered Value

Executing the Automation Strategy

The recent Remsdaq Ltd. acquisition advances Powell's automation capabilities

SCADA Remote Terminal Units

SCADA Remote Terminal Units (RTUs) are used by utility operators to monitor and control their assets. Remsdaq leads District Network Operators (DNOs) in the UK and overseas supplying SCADA RTUs and monitoring software.

Access Control Systems

Integrated Security provides a range of products from readers and access control panels to management software and perimeter intrusion detection systems (PIDS).

Engineering and Support Services

Support services including technical support, training schools, installation, commissioning and maintenance engineers.

- Remsdaq – Remote Supervisory Data Acquisition
- Founded in 1974 ... Well established in UK utility market
- Located in purpose built 44,000 SF facility
- Approximately 60 employees

Primary End Markets

Oil, Gas and Petrochemicals

Processing liquids & gases requires safe reliable energy

- Liquefied Natural Gas (LNG)
- Refining
- Petrochemical
- Pipelines
- Biofuels, Hydrogen, Carbon Capture

Industrial & Commercial Applications

Industries that require or produce large amounts of electrical energy

- Utilities – Generation & Distribution
- Data Centers
- Transportation – Light Rail
- Metals and Mining
- Pulp and Paper

Competitors / Partners

Unique Position as a full line manufacturer with complete integration capability at multiple locations

Electrical Equipment Manufacturers Regional Fabricators/Integrators

HVAC Systems
Battery Systems

Fire / Gas Detection
Communications

Safety Stations
3rd Party Certification

Strategic Focus Areas

Focused on Enhancing Profitability Across Strategic Applications

Capital Allocation Framework

Targeting a **balanced approach** to capital allocation to maximize return on capital, while supporting our strategic initiatives and driving sustainable, long-term shareholder value

Book to Bill

Fiscal 2026 Highlights

- TTM rolling Book to Bill ratio → 1.8x
- Healthy backlog ... Booking into Fiscal 2028
- Backlog convertibility typically 12-18 months
- Strong activity across all end markets

(a) The amounts recorded in backlog may not be a reliable indicator of our future operating results and may not be indicative of continuing revenue performance over future fiscal quarters or years primarily due to unexpected contract adjustments, cancellations or scope reductions.

(b) New orders (bookings) represent the estimated value of contracts added to existing backlog (unsatisfied performance obligations).

Attractive Investment Opportunity

- Leader in engineer-to-order, value added solutions for complex electrical distribution applications that require the management & control of electrical energy
- Domain expertise on complex, large projects where customer risk is high
- Products are typically on the 'critical path' for large EPC projects
- The growth in electrification requirements across the global landscape that is driving increased demand for power, requires reliable, safe and efficient power solutions
- Commercial & Other Industrial activity increasing as the demand for electric distribution equipment grows
- Strong product lineup through a history of innovation and R&D, coupled with in-house engineering & manufacturing capabilities
- Strong presence in medium voltage breaker market with Powl/Vac[®] breaker and the Power/Vac[®] breaker acquired from General Electric
- Strategic efforts focused on diversification into nascent markets such as alternative fuels, hydrogen, energy storage and carbon capture and sequestration
- Very strong balance sheet and zero debt offers optionality
