Powell Industries, Inc. (NASDAQ:POWL)

Investor Presentation
July 2024

Forward Looking Statements

This presentation contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements other than statements of historical fact, included in this presentation are forward-looking statements. Such forward-looking statements include, but are not limited to, projections and estimates concerning the timing and success of specific projects, our future backlog, revenues, income, acquisitions, liquidity, capital spending, results of operations and financial condition, as well as other statements that are not historical facts contained in or incorporated by reference into this presentation. These forward-looking statements speak only as of the date of this presentation; we disclaim any obligation to update or revise these statements unless required by applicable law, whether as a result of new information, future events or otherwise; and we caution you not to unduly rely on them. We have based these forward-looking statements on expectations and assumptions of management at the time the statements were made. While our management considers these expectations and assumptions to be reasonable, they are inherently subject to significant business, economic, competitive, regulatory and other risks, contingencies and uncertainties that could cause actual results to differ materially from those included in this presentation, most of which are difficult to predict and many of which are beyond our control. These risks, contingencies and uncertainties relate to, but are not limited to, the factors detailed herein and in our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and other SEC filings, which are available on our website at powellindustriesing.gcs-web.com. We can provide no assurance that the forward-looking statements contained in this presentation will occur as expected, and actual results may differ materially from those included in this presentation.

Non-GAAP Financial Measures

This presentation includes non-GAAP financial measures, which help facilitate comparison of company performance across periods. For a reconciliation of non-GAAP measures included herein to the nearest corresponding GAAP measure, please see the appendix to this presentation.

Powell Industries ... Who We Are

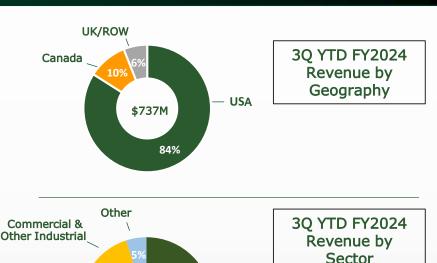

Light Rail Traction Power

Electric Utility

✓ Founded in 1947 with headquarters in Houston, Texas

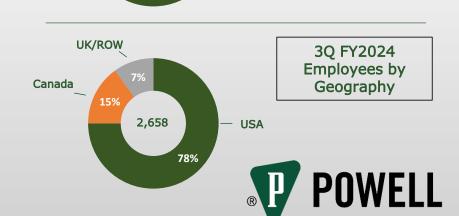

- ✓ Global manufacturing footprint
- √ 3Q YTD FY2024 revenues of \$737M
- ✓ Unleveraged balance sheet

\$737M

20%

59%

Oil & Gas and Petrochemical

Experts in Electrical Distribution

Leader in the custom design, manufacture and service of complex electrical solutions where critical power applications demand safe and reliable supply

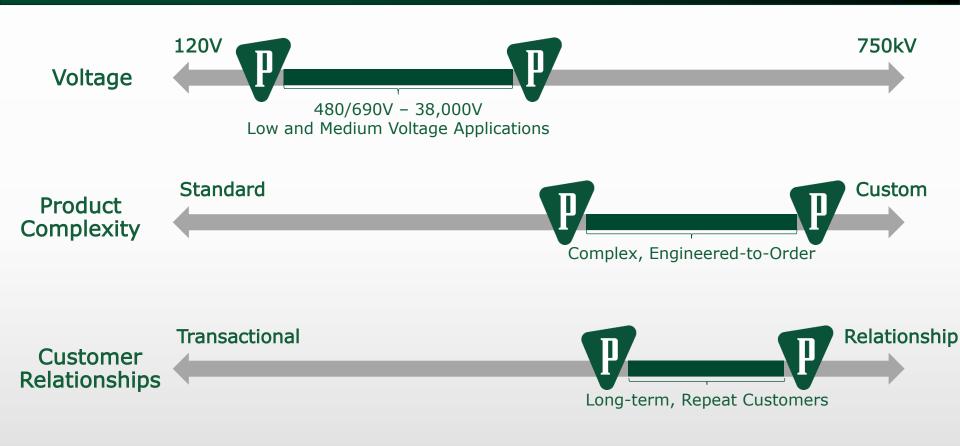

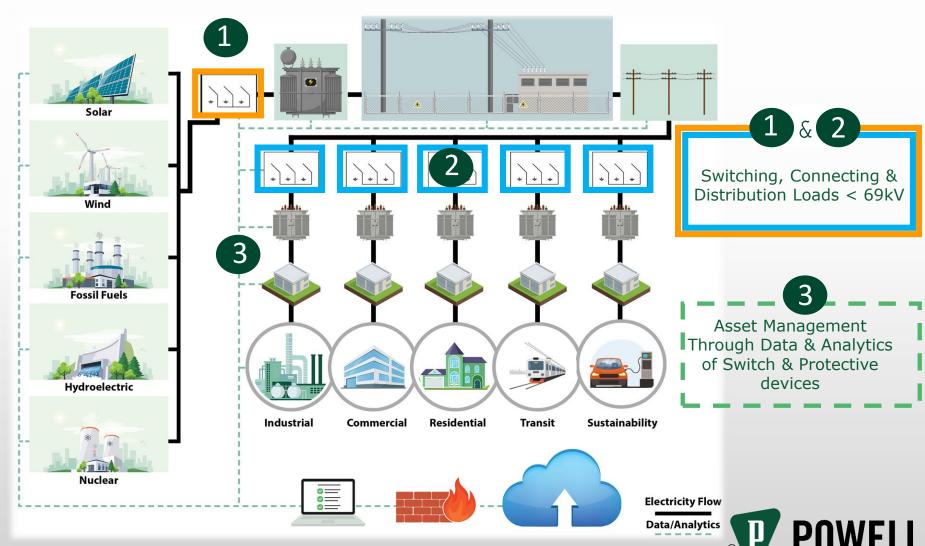

Market Focus

Nature of Highly Complex, Custom Solutions Fosters Recurring Customers

Focusing on Electrical Distribution

Switchgear Solutions

American National Standards Institute (ANSI)

Predominant Standard in North America

Flexible design and construction to your unique application

Meets or exceeds the requirements of national, regional and local standards

International Electrotechnical Commission (IEC)

Predominant Standard Outside North America

Experienced technical resources driving superior end products

Reliable, engineered to order, tested electrical solutions

Engineered to Order Customized Power Distribution

Integrated Power Solutions

Power Control Room

Custom Engineered Module

Secure factory controlled environment for fabrication versus jobsite construction

Expertise of electrical distribution & control while compliant to latest building & energy codes

Coordination of multiple interfaces & auxiliary systems with the highest safety standards

Fully complete, operationally ready, integrated and tested solution

Optimizing Electrical Power Solutions

Typical Power Control Room

Typical PCR Project

- ✓ Engineered to Order
- √ ~45 engineers
- √ ~97 sub-suppliers
- √ ~4,400 purchased components
- √ ~750 electrical & mechanical drawings

Control & Monitoring Solutions

Intelligent Power Products

Digital Sensors and Asset Management

Custom Engineered Control

Power Management and System Integration

Power management, control, electrical asset health monitoring & management

System architecture design, integrating intelligent electrical devices & industry standard protocols

Standard & engineered to order applications with custom engineered user interface

Robust integration testing of application, control and monitoring solutions

Delivered Value

Primary End Markets

Oil, Gas and Petrochemicals

Processing liquids & gases requires safe reliable energy

- Liquefied Natural Gas (LNG)
- Refining
- Petrochemical
- Pipelines
- Biofuels, Hydrogen, Carbon Capture

Industrial & Commercial Applications

Industries that require <u>or</u> produce large amounts of electrical energy

- Utilities Generation & Distribution
- Transportation Light Rail
- Metals and Mining
- Pulp and Paper
- Data Centers

Developing Market Opportunities

New Technologies Driving Opportunity... Increased demand for cleaner energy and lower cost of ownership is opening new growth opportunities

Automation

Remote diagnostics and predictive analytics are lowering the overall cost of ownership for capital equipment globally

Biofuels/Biodiesel

Demand for renewable energy continues to grow ... Brownfield facilities being converted to bio-fuel production

Grid Resilience & Energy Storage

Distributed switching applications and technologies ... Evolving battery storage technology ... Low and Medium voltage distribution applications emerge

Carbon Capture & Sequestration

Moving compressed CO2 from the source to permanent underground storage requires complex distribution systems

Hydrogen

Technologies
supporting the safe and
efficient production of
hydrogen as a fuel
requires considerable
electrical energy

Longer Term Opportunities

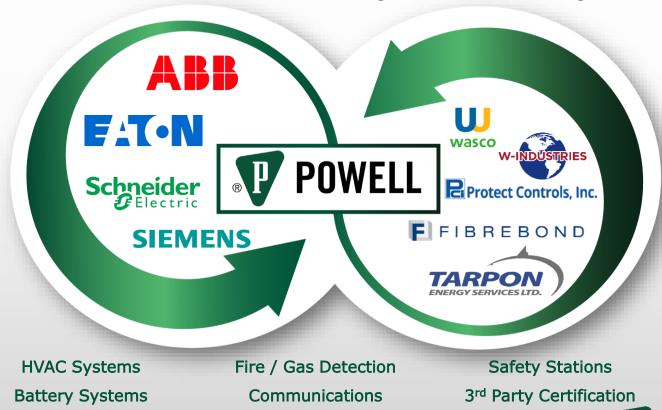

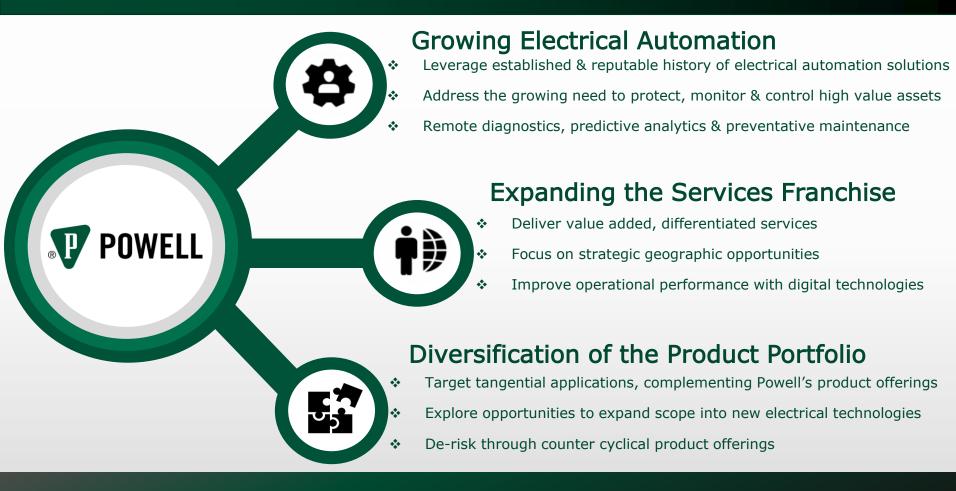

Competitors / Partners

Unique Position as a full line manufacturer with complete integration capability at multiple locations

Electrical Equipment Manufacturers Regional Fabricators/Integrators

Strategic Focus Areas

Focused on Enhancing Profitability Across Strategic Applications

Capital Allocation Framework

Targeting a **balanced approach** to capital allocation to maximize returns on capital and create sustainable shareholder value

Working Capital

Ensuring sufficient working capital to serve customers

Exceptionally strong Balance Sheet

Strong emphasis on maintaining robust working capital and liquidity

Organic Growth

Leverage our history of innovation and commitment to R&D

Robust processes to develop new products and services, investing in our technology and people

Shareholder Return

Enhance shareholder returns through dividends

Consistent quarterly dividend for <u>43</u> consecutive quarters

Dividend increased by 1% for second consecutive year effective 2Q FY2024

Inorganic Growth

Broaden capabilities & ability to compete in new markets

Targeting end market opportunities that will capitalize on new technologies & markets that align to strategy and return objectives

Historical Financials

(\$000) Excluding EPS	Net Revenue	Gross Profit %	EBITDA Margin % ^{-a)}	D&A	Capital Spending	E	Diluted arnings · Share ^{-b)}	Operating Cash Flow	
FY2019	517,180	16.8%	4.5%	12,032	4,306	\$	0.85	68,759	
FY2020	518,499	18.2%	5.8%	10,538	5,163	\$	1.42	72,394	
FY2021	470,559	16.0%	2.4%	10,335	2,931	\$	0.05	(30,461)	
FY2022	532,582	16.0%		9,358	2,451	\$	1.15	(3,582)	
FY2023	,	21.1%		8,606	7,819	\$	4.50	182,553	
3Q YTD FY2024	737,293	26.1%	17.3%	5,074	3,527	\$	8.52	114,652	

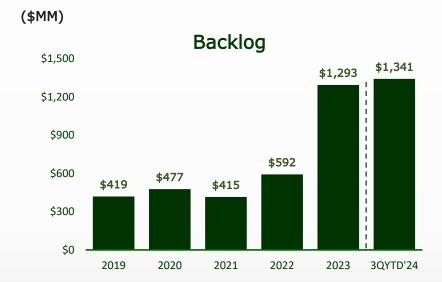

Demonstrated Operational & Financial Discipline Across Industry Cycles

⁽a- See Supplemental Financial Information regarding non-GAAP reconciliations.

⁽b- FY2022 diluted EPS includes unusual items totaling \$0.80. FY2023 diluted EPS includes unusual items totaling \$0.38

Backlog, Orders & Revenue Trend

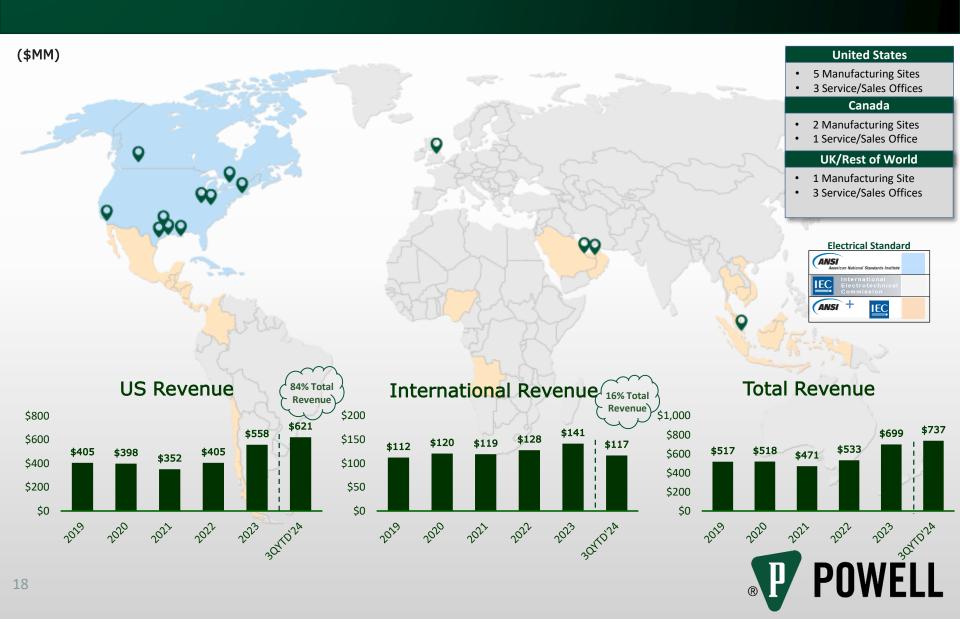

3Q Fiscal 2024 Highlights

- □ TTM rolling Book to Bill ratio \rightarrow 1.0x
- Backlog convertibility typically 12-18 months
- Healthy backlog ... Booking into Fiscal 2026
- Strong activity across most end markets

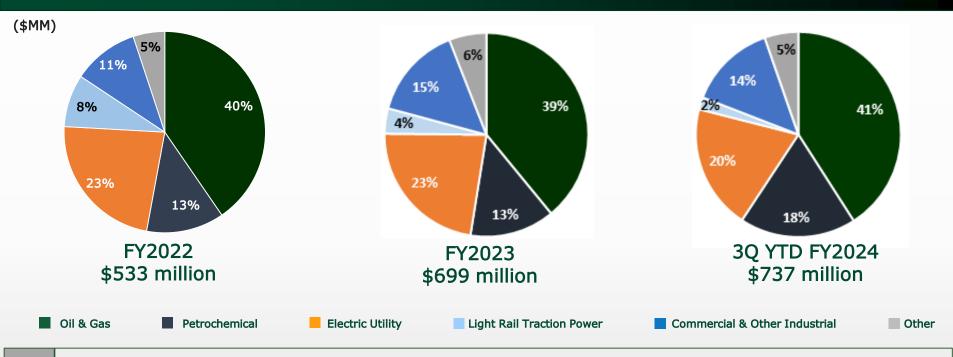

Global Presence

Sectors

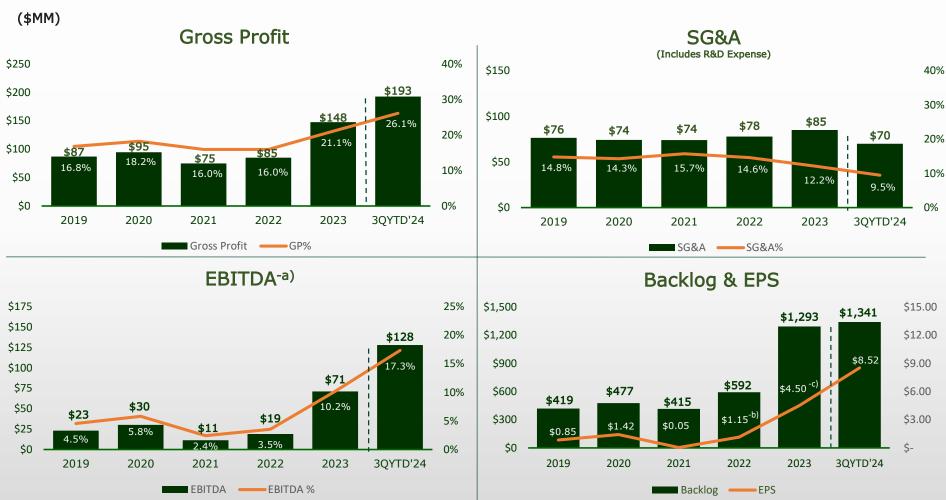

Revenue Mix By Sector

- Oil & Gas ... LNG, Hydrogen, Carbon Capture, Biofuels, Midstream/Downstream processing
- Petrochemical ... Downstream industrial transformational processes
- Electric Utility ... Targeting power distribution and power generation facilities
- Light Rail Traction Power ... Supporting global light rail infrastructure
- Commercial & Other Industrial ... Data Centers, Pulp & Paper, Mining
- Other ... Universities, Original Equipment Manufacturers, Government

Income Statement Metrics

⁽a- See Supplemental Financial Information regarding non-GAAP reconciliations.

⁽b- FY2022 diluted EPS includes unusual items totaling \$0.80.

⁽c- FY2023 diluted EPS includes unusual items totaling \$0.38.

Balance Sheet Metrics

(\$MM, except where otherwise indicated)	Sept FY 2019			Sept ' 2020		Sept / 2021		Sept 7 2022		Sept Y 2023	June FY 2024		
Cash and ST Investments	\$	125	\$	179	\$	134	\$	117	\$	279	\$	374	
Debt		1.2	\$	0.8	\$	0.4	\$	-	\$	-	\$	-	
Equity	\$	299	\$	307	\$	301	\$	297	\$	345	\$	437	
Working Capital ^{-a)}	\$	170.7	\$	182.7	\$	181.3	\$	183.6	\$	226.3	\$	317.3	
Working Capital Turns ^{-a)}		3.2x		2.9x		2.6x		3.0x		3.5x		3.7x	
Current Ratio		2.1 to 1		2.2 to 1		2.5 to 1		.0 to 1	1	.6 to 1	1.8 to 1		
DSO		68 days		55 days		54 days		9 days	8	9 days	54 days		
Return on Equity % ^{-b)}		3.3%		5.4%		0.2%		4.6%		15.8%	23.8%		

(a- Working Capital is equal to current assets (including Cash and ST Investments) minus current liabilities

(b- Return on Equity % is equal to Net Income divided by Total Stockholders' Equity

Exceptional Balance Sheet & Strong Liquidity Position

Attractive Investment Opportunity

- Leader in engineer-to-order, value added solutions for complex electrical distribution applications that require the management & control of electrical energy
- Domain expertise on complex, large projects where customer risk is high
- The growth in electrification requirements across the global landscape that is driving increased demand for power, requires reliable, safe and efficient power solutions
- Products are typically on the 'critical path' for large EPC projects
- Strong product lineup through a history of innovation and R&D, coupled with inhouse engineering & manufacturing capabilities
- Strong presence in medium voltage breaker market with Powl/Vac® breaker and the Power/Vac® breaker acquired from General Electric
- Strategic efforts focused on diversification into nascent markets such as biofuels, biodiesel, hydrogen, energy storage and carbon capture and sequestration
- Very strong balance sheet and zero debt offers optionality
